

A "HOME AWAY FROM HOME"

AVENTURE FB 50

LEAVING... LIVING ABOARD YOUR CATAMARAN FOR A FEW MONTHS OR A FEW YEARS... UNTIL NOW, THIS DREAM MAINLY BECAME REALITY ABOARD SAILING BOATS. NOW, A MOTOR CATAMARAN EXISTS WHICH IS REALLY DESIGNED FOR LIVING ABOARD: THE AVENTURE FLY BRIDGE 50...

#1 : A real liveaboard motor catamaran.

#2 : The Adventure is fast without using too much fuel.

#3 : The inside steering position is very complete and really comfortable.

#4 : The cabins are pleasant and equipped with lots of stowage.

#5 : Like the rest of the boat, the galley is very well-equipped and intelligently designed.

#6 : The gigantic engine room: 2m headroom!

#1

#2

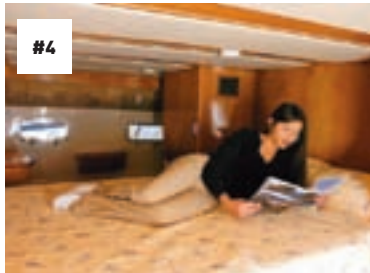

A real liveboard catamaran, which is capable of cruising at more than 23 knots...

LIFE ABOARD

Aventure has already established itself as the progressive designer of "live-aboard catamarans". Now, the new Aventure FB 50 goes one step further,

#3

#4

#5

#6

catering successfully for a family of 6 with accommodation for a captain or 7th person.

The new FB 50 concept is the direct result of input and suggestions from current owners. This live-aboard, 4-level catamaran is a true home away from home, easily handled by the owner and his family.

DESIGN

Hull design is from Angelo Lavranos. The interiors and concept by Tim Jordaan. Fully engineered by High Modulus, the construction ensures strength, combined with perfect lamination process and weight distribution. The resulting design is unique, as are the four levels. The spacious accommodation offers better privacy for all occupants. The dining area is totally separate. The comfortable lounge area includes a tasteful, discreet bar. The uncluttered aft cockpit allows easy access to the swim platform.

The aft cockpit is designed to hold large table, seating for 8 people in comfort, to enjoy beautiful days and evenings. The all-round views from the saloon maintain a true feeling of openness, even on those not so perfect days.

The double cabins have bunks equipped with normal 2.00m x 1.40m sized mattresses. Each cabin has plenty of locker space. In addition, bathrooms are large with separated showers.

The engine room is a real delight, 2.00m headroom throughout, offering much needed space for the storage of bulky items. Bottled water, drinks, suitcases, equipment that normally has to stay ashore, can now be stowed aboard.

Motorisation : The Aventure FB 50 is power by 2 x 315hp Yanmar motors. An economical cruising speed of 14.80 knots at 2.800 rpm, consumes just 25 litres per hour per motor. Top speed of a fully loaded boat can reach 23.5knts at 3.600rpm.

BETTER THAN AT HOME

As standard equipment Aventure supply a 8.5KW generator; Air Conditioning of 48000 BTU; A full Colour Electronic navigation package comprising auto pilot, radar, chart plotter, VHF; A Spectra Water maker; A modern Entertainment center. The galley comes equipped with a Hob, Oven, Microwave, Fridge and Large Freezer and adequate working surface. The interior is in a warm Cherry wood finish. Aventure reserve the choice of materials of upholstery and blinds for discerning owners to personalize their boat to their own taste.

CONCLUSION

A truly unique experience in live-aboard catamarans - The Aventure FB 50 Power Catamaran - cruising with no limits, not even for berthing in marinas. Her slender beam of 4.82m makes sure of this.

Built under the stringent CEE certification, this catamaran with a shallow draft and skegs, is stable, comfortable and sure in heavy weather or seas, and is certainly the answer to the away-from-home concept.
